

Bathroom Partition Materials

BAKED ENAMEL STEEL

Quality, economical material features a thermosetting hybrid powder finish on galvanized steel. Resists corrosion, grease, acids, caustics, marring, and stains.

SOLID PLASTIC POLYMER

The ideal choice for busy public facilities; never needs painting. Highly resistant to denting, chipping, stains, and common acids and cleaning agents, as well as to moisture.

STAINLESS STEEL

Corrosion-resistant material is easily maintained; scratches can be buffed out. Satin finish.
